www.hiseybells.com davidhisey@hiseybells.com

To order a logo bell we will first need to know what type of bell you want your logo on. We can put logos on just about any type of bell. Then we need a high quality image of your logo. From here we can get you an exact quote.

What we need to know:

1. Size and type of bell?
2. What hanging system do you need?
3. A proofed copy of the text you want on the bell.
4. A high quality proof of your logo.
5. Shipping address.
6. Contact telephone number and name of contact person.
7. Payment info., we work with checks, money orders, most credit cards, & purchase orders.
8. An e-mail address..

Additional Notes:

If your bell is a large logo bell do you need a base stand or supporting structure for your bell. Over the years most of our bells have been installed into new or existing architecture or pre-built structures. In some cases, customers have needed a stand alone or fabricated support for the bells they have ordered.

We can help, we have designed dozens of stands, custom brackets, supporting yokes, and custom structures for our bells. Some designs are very simple and inexpensive, some complex, we can provide you with many different free of charge drawings for stand alone supporting structures and stands. Also, we can fabricate them for you or you can choose to fabricate these designs locally. Let us know what you need.

Each Logo Bell is custom cast just for you. It takes about six weeks to manufacture a Logo Bell.

Please call, write, or e-mail, with any questions or specification you need for your bell. Any order can be made over the phone, let us do the paperwork!

Thank you,
Dave Hisey
